Painting: Be Saved

May 23, 2020 | By a Falun Gong practitioner in Australia

(Minghui.org)

Be Saved (Song)

We have fallen to this maze
Helpless, lost can't find the way
Searching thousands of
years
One day Master reappears
Be saved, be saved
Please don't miss this chance again

I was deeply moved by the practitioner's sincerity and compassion when she was singing this song. I wanted to capture this in my picture.

In my heart I hope that more people can be saved.

Egg Shell Carving: Celebrating World Falun Dafa Day

May 18, 2020 | By Kai Yuan, China

(Minghui.org) The art of eggshell carving has been passed down from ancient times. A delicate and accurate world map was carved on an ostrich egg about five hundred years ago. The tradition of painting eggs to celebrate Easter is much older.

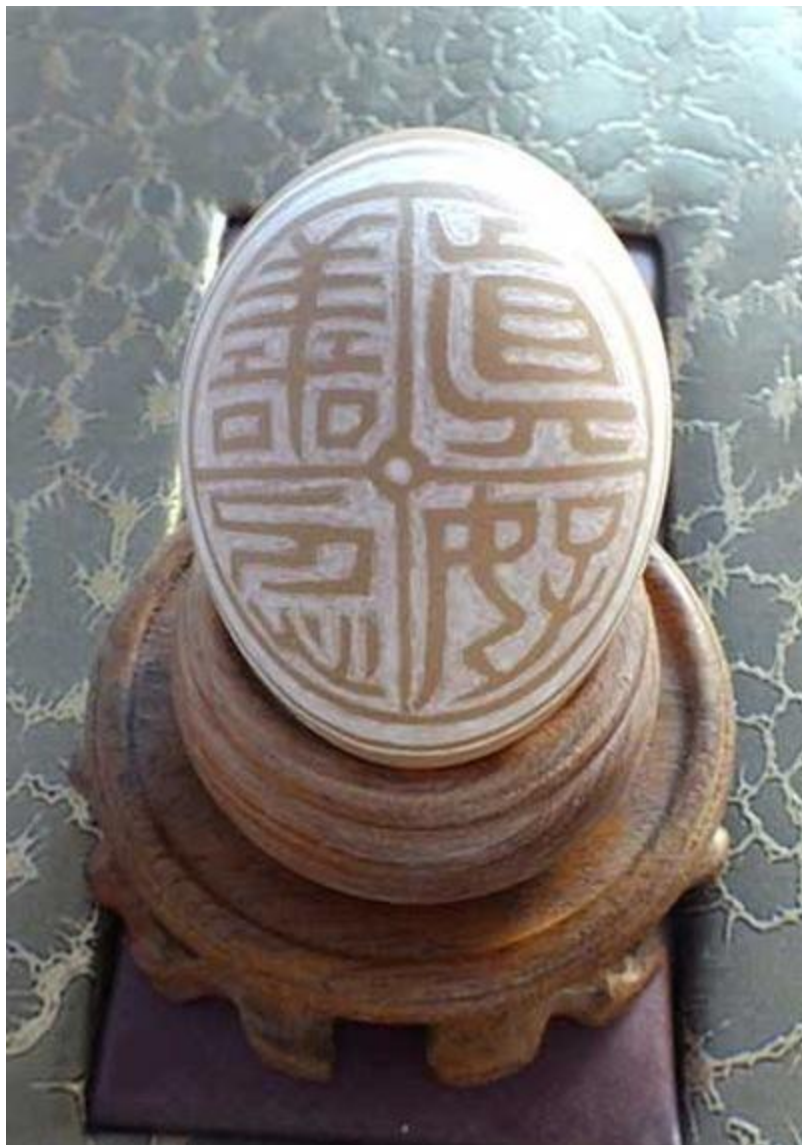

To celebrate the 21st World Falun Dafa Day, I carved the two eggs to express my respect and gratitude to Master Li.

Front of the egg: Falun Dafa is good.

Rear of the egg: World Falun Dafa Day

Front of the other egg: Truthfulness-Compassion-Forbearance is good.

Rear of the other egg: Wishing Master Li a happy birthday

Size of the two eggs: in length, height, width: 6 x 4 x 4 cm

Product description: For centuries eggs have been highly symbolic and to many they stand for the universe. The outer shell is the outer shell of the universe. The white surrounding the egg yolk is the sky. When a practitioner ascends his realm in the process of cultivation, he emerges and enters a new world.

The two products I made are from common egg shells. The characters were taken from the seal published by Minghui.org. On the front of one egg is the seal script of “Falun Dafa is good.” On the rear is a lotus and lotus leaves.

On the front of the other egg shell is the seal script for, "Truthfulness-Compassion-Forbearance." On the rear are the characters for birthday and a flying crane which represents health and longevity.

Falun Dafa is based on the principles of Truthfulness-Compassion-Forbearance. Master Li made it public in May 1992. It is practiced throughout the world. The Chinese Communist Party (CCP) has persecuted it for 21 years. However, more than 100 million practitioners practice it.

During the coronavirus pandemic, many people feel they've been blessed after learning about Falun Dafa and renouncing the CCP and its affiliated organizations. Many said they recovered from the coronavirus after reciting the phrases "Falun Dafa is good. Truthfulness-Compassion-Forbearance is good."

The girl is reading *Zhuan Falun*, the main book of Falun Dafa. The banner the two angels are holding reads “Falun Dafa Is Good.”

The two verses on the vertical scroll read:
